Uniformed Commercial Code Filing (UCC)

- Can disclose when and where a company, and sometimes individual, obtains a commercial loan
- The type of property pledged to the lender to secure the loans and the current address of the debtor
 - County or state UCC search
 - Proprietary databases

WHAT'S IN A NAME?

The Uniform Commercial Code, or UCC, is a set of model rules that govern commercial transactions in the U.S.

A UCC financing statement may also be called:

- UCC-1 Financing Statement
- UCC-1 Filing

A UCC financing statement is a legal form that allows a lender to announce a lien on a secured loan.

The lien can be:

- Against specific collateral, such as a backhoe
- A blanket lien, which gives lenders an interest in all of the borrower's business assets

The Dark Web

Black Market is alive and well

Dark Web

- The Dark Web is classified as a small portion of the Web that has been intentionally hidden and is inaccessible through standard web browsers
- The most famous content that resides on the Dark Web is found in the TOR network
- The TOR network is an anonymous network that can only be accessed with a special web browser, called the TOR browser
- This is the portion of the Internet most widely known for illicit activities because of the anonymity associated with the TOR network

In a nutshell what is dark web?

- Nameservers (also called DNS servers) are like phone books for the internet.
- They resolve domain names to IP addresses

- Dark web sites don't resolve to a DNS server, and are only temporarily accessible.
- Resistant to indexing, so little Google can do.
- Requires special browser (i.e. Tor) to search this internet within an internet.

Whatever the hot commodity is

The image displays two side-by-side screenshots of a web browser window. Both windows show the same URL: `coronaygwcbcpd6.onion`. The browser interface includes navigation buttons, a search bar, and a dark theme.

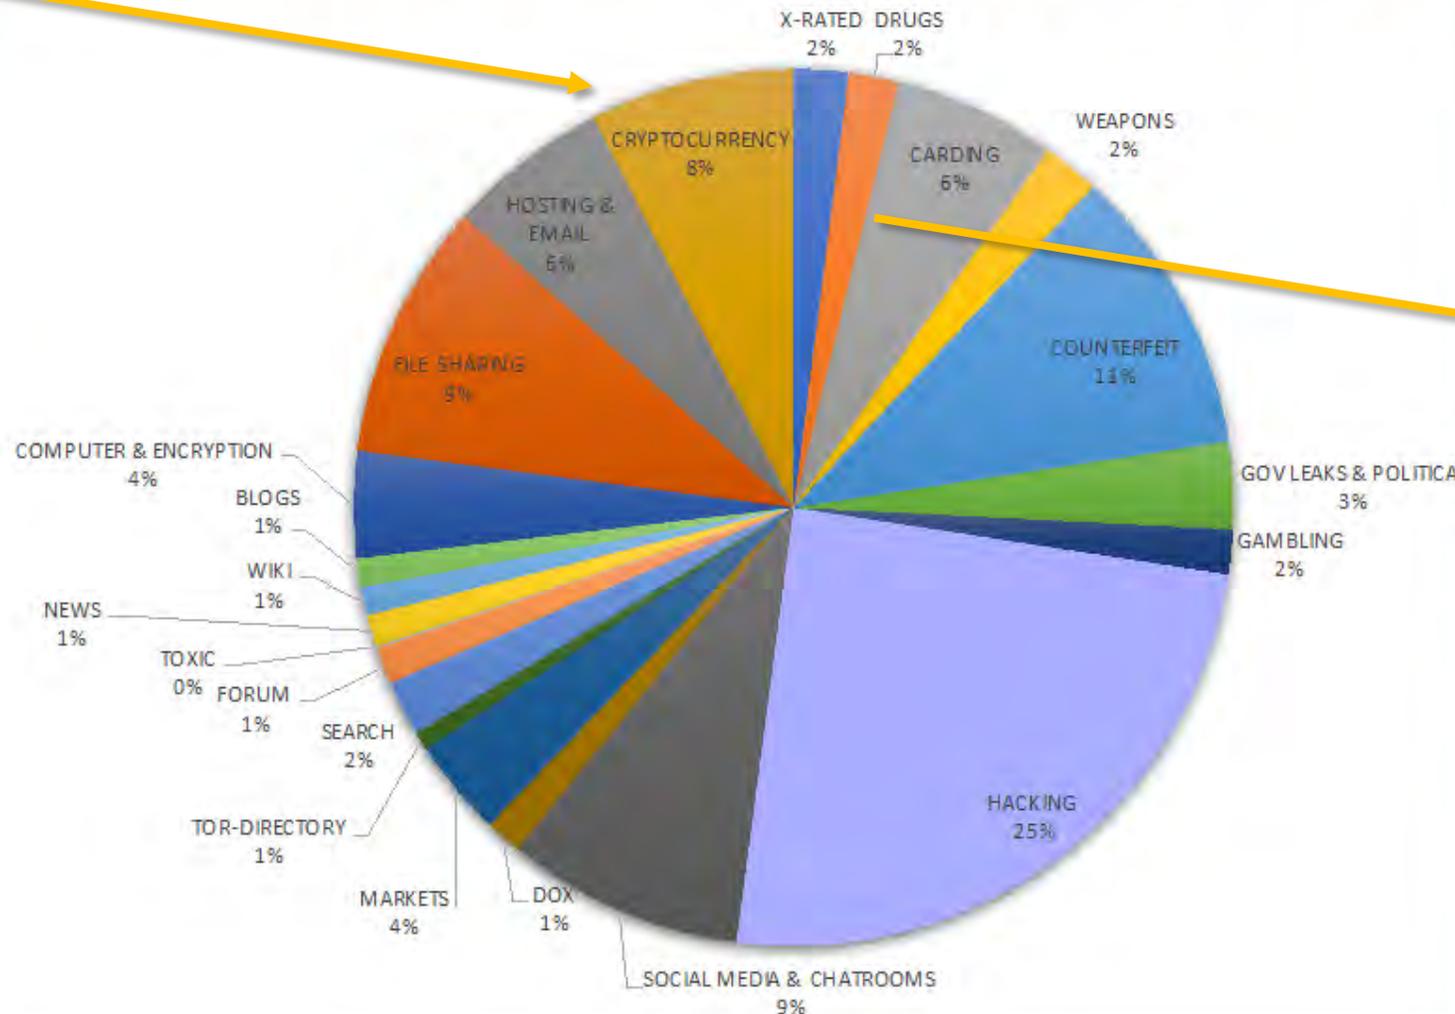

Left Screenshot: The main content area features a large image of a white 3M Aura mask. Below the image, the text reads:
Aura 3M
1 Packet = 10 Masks
Price: 89 C
A red button with a Bitcoin icon and the text "Pay with BITCOIN" is positioned below the price.

Right Screenshot: The main content area features a large image of a white Farstar medical N95 mask. Below the image, the text reads:
Farstar medical N95
1 Packet = 10 Masks
Price: 99 C
A red button with a Bitcoin icon and the text "Pay with BITCOIN" is positioned below the price.

At the bottom of the browser window, a copyright notice is visible: "copyright coronaygwcbcpd6.onion 2020" and a URL: "https://maskawgjournal.com".

The Future of the Internet

The Metaverse takes on Reality

The Metaverse

- Computer generated, entirely virtual realities to log into and interact with other users (think Second Life)
- Web 3.0 – decentralized, trustless, permissionless token-based economy on the blockchain
- Not clear understanding or protection from: fraud, identity theft, user age limits, protection from criminals and exploitation
- Lack of data privacy, cybersecurity, and regulation

The metaverse

Trademarking the metaverse

- Several frontrunners (particularly from China) have already filed hundreds of metaverse-related trademark applications, including “metaapp”
- Nike recently filed 7 metaverse trademarks

End Notes

- OSINT has many facets, financial research in this space is one of them
- Don't overlook traditional databases and resources for FinOSINT research
- The future of money and how we view currency, what we value, will alter crime, but only in its vehicles, intent still remains
- Dark web is a major channel for all criminal activity
- The future of the internet continues to change and challenge us in subtle ways – yet history is still repeating itself
