

Michael Schor

Michael is a Partner in Deloitte's Risk & Financial Advisory practice, where he focuses on providing a variety of risk-based services to the marketplace. Michael has over 17 years of experience managing various projects, including internal audits, business process reviews, risk and control evaluations, development of governance models, system and application reviews, quality assessment reviews, and risk assessments.

In addition to Michael's responsibilities delivering risk-based services to market leading clients, he is also leading Deloitte's efforts around the modernization of key 2nd and 3rd line of defense functions. This includes the People, Process, and Technology considerations that are required to keep pace with rapidly evolving organizations and the emerging risks associated with these changes. Specifically, Mike is leading efforts around the use of automation including data analytics, robotic process automation ('RPA') and Cognitive Intelligence ('CI') and its impact on the workforce of the future.
